Subject: Microsoft Settlement

This settlement is a roll over by the DOJ - written by Microsoft, for Microsoft. Somebody at the DOJ should stand up for the rule of Law. This is a disgraceful cave in, and political pandering of the very worst kind.

Much worse than simply profiting from it's monopoly, Microsoft continues to strangle innovation in the cradle. What Microsoft can not steal it kills. This had caused untold harm to consumers, who have been deprived of quality products for years by this predatory monopolist's tactics.

It is now the DOJ itself that has been perverted by this case. My faith in the American Legal system is solely in the hands of the Judge, if she supports this settlement, then America truly does have the best legal system money can buy.
